# RAD 8-BIT STENCIL RALPH

## DIRECTIONS

Have an adult help you cut out all the black areas of the stencil using a craft precision knife. Save the positive and negative pieces. Prepare an area to work on your t-shirt in a well ventilated room or outdoors. Protect your work area by laying down newspaper.

Pre-design your stencil by laying it on top a piece of newspaper. Place the stencil pieces on top of the newspaper. Use non-toxic spray paint to spray the positive and negative pieces to create your design. When you are happy with your design, lay your t-shirt flat on top of the protected work area, and paint it according to your design! Let dry.
